

## Christmas Colour Bingo

Print out two copies of the bingo cards.

Cut up one of the copies and put all of the cards into a bag.

The adult should then take a card from the bag and describe what is on the card, e.g. red angel, blue santa, green tree.

The child should then look on their bingo card and point to what they think was described.

The adult should then show the child the card and see if it matched what they pointed to. The card should then be placed on the bingo card.

The adult can then repeat the same again or the child can have a turn.
