

Colourful Semantics - space theme

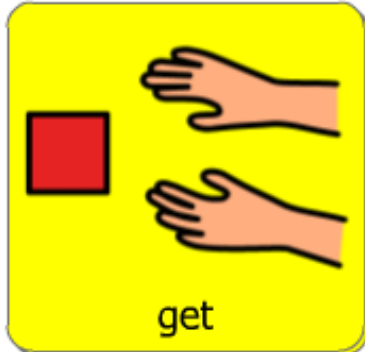

You can use this pack with children when carrying out space themed activities. You can talk about what is seen in space. This pack will support children when expressing their thoughts and feelings. You can also use this to talk about objects and help children learn how to use describing words.

You can prompt them by asking questions such as:

- 'what size is it?'
- 'what do you think it feels like?'
- 'what do they travel in?'
- 'where do they go?'
- 'what does it look like?'
