

Who Doing What

All the symbols and pictures you will need for these tasks are below.

1. Use the colourful semantic pictures for **who**, **doing** and **what**. Cut these out and stick 6 who symbols onto a dice template and the same for the 6 doing symbols. Get the child to roll the orange dice and then the yellow dice and then the green dice. They can then form the short sentence e.g. 'the girl is playing with the toys', 'the baby is eating the cookie', 'the boy is reading a book'. Due to the nature of rolling the dice, the sentences may not make sense but the children are likely to find this more engaging if they are funny. They may also enjoy forming sentences which do make logical sense and showing you these by using the dice.

2. Set up the colourful semantic stand using a piece of card and the coloured cards. Choose a number of pictures from and show each picture one at a time to the child. Give the child forced choices of 2 symbols for each level (who and doing and what). Ask the child to look at the picture and ask the child the necessary questions – first 'who is in the picture? - is it a boy or a girl?'. Then let them choose the symbol out of the 2 you gave them. Then do the same for the 'doing' section - 'what is the girl doing? - is she playing or is she drinking?'. Then do the same for the 'what' section - 'what is the girl playing with? - is she playing with a cup or toys?'. Then if the child is able to, get the child to read/use the symbols to form the sentence altogether and say it out loud. You can then model this with any extra information such as determiners/auxillary verbs.

3. Have the who, doing, what symbols in separate piles and turned over so that the child cannot see the symbols. Get the child to turn over one symbols from the orange pile and one from the yellow pile and then one from the green pile. The child can then build a silly sentence with the symbols e.g. 'The fish is eating the chocolate '.
